

# IMPORTANT

**To prevent the spread of respiratory viral illness please follow these seasonal visitation guidelines:**

## MUSC Health Florence Women's Pavilion

Our primary goal is the safety of our patients, families, and care team members. Given the ongoing community spread of respiratory viral illness, we are instituting the following visitor restrictions.

**As of November 14, 2022:**

- **No family members or visitors under the age of 18 will be permitted.**
- **Visitors will be screened by guest services and registration team members. Any visitor for patients who screens positive for any of the following symptoms will not be permitted to visit:**
  - **Fever**
  - **Cough**
  - **Sore Throat**
  - **Chills**
  - **Runny Nose**
  - **Sneezing**
  - **Shortness of Breath**
  - **Chest Pain**
  - **Vomiting**
  - **Diarrhea**
  - **Abdominal Pain**
- **Masking is highly recommended in patient care areas for family, visitors, and care team members.**

We realize these guidelines place additional stress on you and your family. Most rooms have internet access that will allow computer and smartphone connection; so, you can stay connected AND safe from infections that could be spread from person to person. Any special concerns and questions can be routed through your care team members to the hospital supervisor.
